Federal Supply Service

Authorized Federal Supply Schedule Price List

On-line access to contract ordering information, terms and conditions, up-to-date pricing, and the option to create an electronic delivery order is available through **GSA Advantage!**™, a menu-driven database system.
The INTERNET address for **GSA Advantage!**™ is: **<http://www.GSAAdvantage.gov>**.

MAS – Multiple Award Schedule
Professional Services – Technical and Engineering Services (non-IT)
Scientific Management and Solutions – Testing and Analysis

Contract Number: GS-00F-012GA

For more information on ordering from Federal Supply Schedules
click on the FSS Schedules button at <http://www.gsa.gov/schedules-ordering>

Contract Period: 10/4/2016 and ends 10/3/2021

Modification: PS-0013

Effective Date: 09.17.2020

Contractor:

**Darkblade Systems Corporation
420 W Jubal Early Drive
Suite 204
Winchester, VA 22601**

Business Size: Small Business, Service-Disabled Veteran Owned Business

In accordance with 13 C.F.R. 121.404, the Contractor is ineligible to participate in any RFQ that is set aside for small business where the subject contract's awarded size status for the preponderance NAICS designated in the RFQ is "other than small".

Contract Administration: Kerry Walters

CUSTOMER INFORMATION:

1a. Table of Awarded Special Item Number(s):

SIN	Recovery SIN	SIN Description
541330ENG	541330ENG RC	Engineering Services
541380	541380 RC	Testing Laboratory Services
541420	541420 RC	Engineering System Design and integration Services
541715	541715 RC	Engineering Research and Development and Strategic Planning
OLM		Order Level Materials

- 1b. Lowest price model number for each SIN: Not Applicable
- 1c. Hourly Rates: See Price Table Below.
2. Maximum Order: \$1,000,000.00
3. Minimum Order: \$100.00
4. Geographic Coverage (delivery Area): Worldwide and Domestic
5. Point(s) of production (city, county, and state or foreign country): Same as company address
6. Discount from list prices or statement of net price: Prices shown are GSA net discounts deducted.
7. Quantity discounts: None
8. Prompt payment terms: Net 30 days. Information for Ordering Offices: Prompt payment terms cannot be negotiated out of the contractual agreement in exchange for other concessions.
- 9a. Government purchase cards are accepted up to the micro-purchase threshold.
- 9b. Government purchase cards are accepted above the micro-purchase threshold.
10. Foreign items (list items by country of origin): None
- 11a. Time of Delivery (Contractor insert number of days): Specified on the Task Order
- 11b. Expedited Delivery: Contact Contractor
- 11c. Overnight and 2-day delivery: Contact Contractor
- 11d. Urgent Requirements. Contact Contractor
12. F.O. B Points(s): Destination
- 13a. Ordering Address(es): Same as Contractor
- 13b. Ordering procedures: For supplies and services, the ordering procedures, information on Blanket Purchase Agreements (BPA's) are found in Federal Acquisition Regulation (FAR) 8.405-3.
14. Payment address(es): Same as company address
15. Warranty provision.: Contractor's standard commercial warranty.
16. Export Packing Charges (if applicable): N/A

17. Terms and conditions of Government purchase card acceptance (any thresholds above the micro-purchase level): Contact Contractor
18. Terms and conditions of rental, maintenance, and repair (if applicable): N/A
19. Terms and conditions of installation (if applicable): N/A
20. Terms and conditions of repair parts indicating date of parts price lists and any discounts from list prices (if applicable): N/A
- 20a. Terms and conditions for any other services (if applicable): N/A
21. List of service and distribution points (if applicable): N/A
22. List of participating dealers (if applicable): N/A
23. Preventive maintenance (if applicable): N/A
- 24a. Environmental attributes, e.g., recycled content, energy efficiency, and/or reduced pollutants: N/A
- 24b. Section If applicable, indicate that Section 508 compliance information is available on Electronic and Information Technology (EIT) supplies and services and show where full details can be found (e.g. contactor's website or other location.) The EIT standards can be found at: www.Section508.gov/: N/A
25. Data Universal Numbering System (DUNS) number: 962260068
26. Notification regarding registration in System for Award Management (SAM) database: Registered

Final Pricing: The rates shown below include the Industrial Funding Fee (IFF) of 0.75%.

Service Contract Act: The Service Contract Labor Standards, formerly the Service Contract Act (SCA), apply to this contract and it includes SCLS applicable labor categories. Labor categories and fixed price services marked with a (**) in this price list are based on the U.S. Department of Labor Wage Determination Number(s) identified in the SCLS/SCA matrix. The prices awarded are in line with the geographic scope of the contract (i.e., nationwide).

SCA Eligible Labor Category	SCA Equivalent Code Title	Wage Determination No
Electronics Technician III	30084 Electronics Technician III	2015-4281
Electronics Technician II	30083 Electronics Technician II	2015-4281
Electronics Technician I	30082 Electronics Technician I	2015-4281

Labor Category	Functional Responsibility	Education	Year's Experience
Chief Engineer/Scientist	A Chief Engineer Scientist Level possess the knowledge and judgment to complete assignments consisting of numerous steps that vary in nature and sequence related to logistics programs. Selects from alternative methods and refers problems not solvable by adapting or interpreting substantive guides, manuals, or procedures. Typical duties include assisting in a variety of administrative matters; maintaining a wide variety of financial or other records; verifying statistical reports for accuracy and completeness; and handling and adjusting complaints. May require supervisory responsibility. Use a thorough knowledge of an office's work and routine to 1) choose among widely varying methods and procedures to process complex transactions; and 2) select or devise steps necessary to complete assignments. Serves as technical consultant to agency customer, provides technical assessments and reviews design, qualification, specifications, test documentation.	Bachelors in a related field	8
Project Control Specialist I	The Project Control Specialist responsible for identifying and documenting project control business processes in support of system projects. This position requires technical skills and independent judgment as well as a general knowledge of cost control and \ scheduling procedures for capital projects. The Project Control Specialist II serves as a subject-matter expert as it relates to project controls and related data systems. Incumbents review, analyze, evaluate, and administer a complex variety of actions in the VTA ERP system. Incumbents serve as a project lead.	Associates Degree	1
Contracts Specialist	Under guidance, carries out pre-determined and recurring tasks which are designed to provide broad, but limited exposure to the contracts profession. Assignments may include but are not limited to general contracts support in all stages of contracting lifecycle. Exposure to FAR and/or DFAR.	Bachelors in a related field	3
Training Specialist II	Training Specialist/Instructor IIs have experience in the preparation of courseware, and the course design, and Programs of instruction. Writes lesson plans, criterion and diagnostic testing instruments, student workbooks and presentation media. Compiles computer-based training program from established formats. Presents instructor lead training and administers criterion and diagnostic tests.	Bachelors in a related field	5
Training Specialist I	Training Specialist/Instructor Is have experience in the preparation of courseware, and the course design, and Programs of instruction. Writes lesson plans, criterion and diagnostic testing instruments, student workbooks and presentation media. Compiles computer-based training program from established formats. Presents instructor lead training and administers criterion and diagnostic tests.	Bachelors in a related field	4
Senior Logistician	Provides acquisition logistic functions associated with the design, development, test, production, fielding, sustainment, or disposal of logistics systems.	Bachelors in a related field	5
Electronics Technician III **	Applies advanced knowledge to solve unusually complex problems in working with various types of equipment. Sets up and conducts a variety of complex test scenarios and anticipates and compensates for unique requirements for thermal protection of all instrumentation, structures, and components.	Associates Degree	7
Electronics Technician II **	Assembles or constructs simple or standard equipment or parts. Services other instruments or equipment. Conducts a variety of standardized flammability tests; prepares test specimens; sets up test equipment; records test data. Extracts engineering data from various prescribed sources; processes the data using well defined methods; presents the data in prescribed form.	Associates Degree	5

Electronics Technician I **	Assembles or installs equipment or parts requiring simple wiring, soldering, welding, or construction techniques. Performs simple routine tasks or tests such as Bunsen burner tests, uses simple test equipment, records test data. Gathers and maintains specified records of engineering data such as tests, drawings, computations by substituting numbers in a specified formula; plots data and draws graphs.	Associates Degree	3
Test Engineer I	Responsibilities include developing test processes and procedures. Working with design engineers or product development teams, these occupations test technical products, and report problems or failures in an attempt to improve or perfect the products	Bachelors in a related field	3
Engineer I	Engineer I will interact with system users to translate their requirements into systems, hardware, and software requirements and design for operational improvement. Participates in the development of test strategies related to system operations systems. Can prepare logistic strategies or conceptual designs for production facilities. Can design comprehensive supply chains that minimize environmental impacts or costs.	Bachelors in a related field	4
Systems Engineer III	Must be thoroughly familiar with multiple operating systems and be capable of performing system administration and network administration functions to include managing of software and hardware maintenance, utilizing contractor services as applicable, backup procedures, problem troubleshooting, user support, system security and other normal administration requirements as it relates to the development of and or support of a system. May supervise other systems engineers. Will lead the decision-making requirements for related matters.	Bachelors in a related field	5
Engineer Lead	Position will provide in-depth technical knowledge in a logistics related technical field of expertise. Maintains knowledge of state-of-the-art in relevant scientific principles, application methods/procedures, and integration of same into engineering projects related to logistics operations. Can design or analyze operational solutions for projects such as transportation optimization, network modeling, process and methods analysis, cost containment, capacity enhancement, routing and shipment optimization, or information management.	Bachelors in a related field	8
Subject Matter Expert	A subject-matter expert this person possesses the knowledge and judgment to complete assignments consisting of numerous steps that vary in nature and sequence. Selects from alternative methods and refers problems not solvable by adapting or interpreting substantive guides, manuals, or procedures. Typical duties include assisting in a variety of administrative matters; maintaining a wide variety of financial or other records; verifying statistical reports for accuracy and completeness; and handling and adjusting complaints. May require supervisory responsibility. Use a thorough knowledge of an office's work and routine to 1) choose among widely varying methods and procedures to process complex transactions; and 2) select or devise steps necessary to complete assignments. Serves as technical consultant to agency customer, provides technical assessments and reviews design, qualification, specifications, test documentation.	Bachelors in a related field	6
Project Manager II	Provides project supervision and management for major program activities. Manages and directs technical project/program personnel to ensure objectives are met with top quality and levels of performance. Manages large projects involving multifunctional tasking and substantial complexity. Plans and supervises major system life cycle support tasks/functions including requirements definition, acquisition, integration, test and evaluation, fielding/installation, and disposition.	Bachelors in a related field	8

Engineer III	The Engineer must possess the knowledge and judgment to complete assignments consisting of numerous steps that vary in nature and sequence related to logistics programs. Selects from alternative methods and refers problems not solvable by adapting or interpreting substantive guides, manuals, or procedures. Typical duties include assisting in a variety of administrative matters; maintaining a wide variety of financial or other records; verifying statistical reports for accuracy and completeness; and handling and adjusting complaints. May require supervisory responsibility. Use a thorough knowledge of an office's work and routine to 1) choose among widely varying methods and procedures to process complex transactions; and 2) select or devise steps necessary to complete assignments. Serves as technical consultant to agency customer, provides technical assessments and reviews design, qualification, specifications, test documentation.	Bachelors in a related field	4
